Data transfer rate	300 Megabits Per Second
Frequency band class	Single-Band
Special features	LED Indicator

About this item

- Easy Wi-Fi extension Tired of Wi-Fi "dead zone"? Mi Wi-Fi Range Extender Pro can help you easily connect to the network. Put the extender near the router, turn the power on and wait for the yellow indicator light to start flashing. Scan the QR code to install the app and follow the instructions to add the device. When the indicator light turns blue, pairing is complete
- Boost your wireless network Mi Wi-Fi Range Extender Pro connects to your router wirelessly, strengthening and expanding its signal to every corner of the home – even to those, hard-to-reach spots, such as bathrooms, balconies, bedrooms. This ensures an increased coverage of reliable and high-speed Internet for devices such as notebooks, tablets, smartphones, game consoles and smart TVs
- 2×2 external antenna, with a transmission rate of up to 300Mbps add Wi-Fi extenders to vastly speed up your gaming and movie-watching experience. The Mi Wi-Fi Range Extender Pro now comes with a 2×2 external antenna to maintain a transmission rate of

300Mbps while also increasing signal stability
- Support up to 16 devices connected simultaneously Once connected with an existing router, you always get a reliable connection wherever you watch TV, catch up with the latest series or share happy memories with the kids via video call
- Operating temperature: 0-40°C

INTELLINET ACCESS POINT AND WIFI REPEATER AC600 DUAL-BAND

Product Description

The INTELLINET Access Point and WiFi Repeater AC600 Dual-Band is a versatile networking device that enhances your wireless connectivity. With its dual-band support, it provides fast and reliable WiFi coverage for your home or office. Featuring the latest 802.11ac technology, this access point and repeater delivers speeds of up to 600Mbps, allowing you to stream HD videos, play online games, and transfer large files without any lag or buffering. The dual-band capability ensures that you can connect to either the 2.4GHz or 5GHz frequency, depending on your needs and the available network congestion. Equipped with two high-gain antennas, this device extends the range of your existing WiFi network, eliminating dead spots and providing seamless coverage throughout your space. It also supports WPA2 encryption, ensuring that your wireless connection is secure and protected from unauthorized access. The INTELLINET Access Point and WiFi Repeater AC600 Dual-Band is easy to set up and manage. It can be configured using a web-based interface, allowing you to customize your network settings and monitor the connected devices. It also supports multiple operating modes, including access point, repeater, and client, giving you the flexibility to use it in various scenarios. Upgrade your wireless network with the INTELLINET Access Point and WiFi Repeater AC600 Dual-Band and enjoy fast and reliable WiFi connectivity throughout your home or office.

Function:

1. Extend your wifi signal throughout your whole house,
2. Eliminate dead zone, wifi signal in dead area such as Kitchen, Bathroom ect
3. Cellpphone signal boost 100% , stream music video game at ease
4. Repeater : Extend wifi range to make you receive wifi signal anywhere around house
5. AP Mode: Acess Point Mode creates a wireless network for the other Wi-Fi devices

Quick Setup

1. Plug this unit into a power socket. Wait until see green led steady blink
2. On your phone/tablet/laptop connect to wireless network which name is"Wifi Repeater" (NOT your existing Wifi)
3. Open your browser and go to 192.168.10.1
4. Log in. Username and password are both "admin"
5. Click on "Repeater" (under Wizard)
6. Select your existing Wifi network and click "Apply"
7. Change the Repeater SSID(name) and Security key to EXACTLY match the SSID and password of your Wifi network. Click "Apply".
8. Reset tips: Stick/Press the reset button for nearly 10s or more until you see the green LED blink steady

Note:

- Please connect the wifi "WiFi Repeater" on your computer/phone wireless list before you log in the website "192.168.10.1" to configure.
- If you set the device as a repeater,please enter your original home wifi password and it is recommended to rename the SSID.

- If you want to reconfigure this device, please reset it first: Press the reset button over 10s till only the red power light on and green WPS light on and then WLAN light blinks.

Specifications:

- Frequency Band: 2.4 GHz
- Supported Voltage:110V-240V
- Maximum WLAN security with WPA2,WPA and WEP(128/64)
