About this item

- Easy Wi-Fi extension Tired of Wi-Fi “dead zone”? Mi Wi-Fi Range Extender Pro can help you easily connect to the network. Put the extender near the router, turn the power on and wait for the yellow indicator light to start flashing. Scan the QR code to install the app and follow the instructions to add the device. When the indicator light turns blue, pairing is complete
- Boost your wireless network Mi Wi-Fi Range Extender Pro connects to your router wirelessly, strengthening and expanding its signal to every corner of the home – even to those, hard-to-reach spots, such as bathrooms, balconies, bedrooms. This ensures an increased coverage of reliable and high-speed Internet for devices such as notebooks, tablets, smartphones, game consoles and smart TVs
- 2x2 external antenna, with a transmission rate of up to 300Mbps add Wi-Fi extenders to vastly speed up your gaming and movie-watching experience. The Mi Wi-Fi Range Extender Pro now comes with a 2x2 external antenna to maintain a transmission rate of

300Mbps while also increasing signal stability

- Support up to 16 devices connected simultaneously Once connected with an existing router, you always get a reliable connection wherever you watch TV, catch up with the latest series or share happy memories with the kids via video call
 - Operating temperature: 0-40°C

Product Description

Introducing our 100% brand new and high-quality Plug and Play 4 Port USB Hub. This sleek and compact hub is the perfect companion for both laptop and desktop computers, providing you with convenient connectivity options.

Effortless Compatibility

Our USB hub supports a wide range of operating systems, including Windows Vista, Windows XP, 2000, 98, and Mac OS 8.6 and higher. Whether you're using a PC or a Mac, this hub is designed to seamlessly integrate with your existing setup.

Enhance Your Connectivity

Tired of struggling to reach those hard-to-access USB ports on your laptop? Our 4-port USB hub is here to solve that problem. With its compact design and easy plug-and-play functionality, it's the ideal USB expansion for portable use on the road or at home.

Unleash the Power of USB

With this USB hub, you can effortlessly connect USB 1.1 or 2.0 peripherals to your computer. Whether it's a USB mouse, a portable hard drive, a CD-R/RW or DVD-ROM drive, or even another USB hub, this versatile device has got you covered.

Convenient Design

Please note that only one USB port can be used at a time with this hub. However, with its sleek black color and compact size, it's the perfect accessory to carry with you wherever you go. Plus, it's incredibly easy to set up - simply plug it into your computer's USB port and you're ready to go.

Package Includes

The package includes one USB 2.0 Hi-Speed 4-Port Splitter Hub.

Product Description

The INTELLINET Access Point and WiFi Repeater AC600 Dual-Band is a versatile networking device that enhances your wireless connectivity. With its dual-band support, it provides fast and reliable WiFi coverage for your home or office. Featuring the latest 802.11ac technology, this access point and repeater delivers speeds of up to 600Mbps, allowing you to stream HD videos, play online games, and transfer large files without any lag or buffering. The dual-band capability ensures that you can connect to either the 2.4GHz or 5GHz frequency, depending on your needs and the available network congestion. Equipped with two high-gain antennas, this device extends the range of your existing WiFi network, eliminating dead spots and providing seamless coverage throughout your space. It also supports WPA2 encryption, ensuring that your wireless connection is secure and protected from unauthorized access. The INTELLINET Access Point and WiFi Repeater AC600 Dual-Band is easy to set up and manage. It can be configured using a web-based interface, allowing you to customize your network settings and monitor the connected devices. It also supports multiple operating modes, including access point, repeater, and client, giving you the flexibility to use it in various scenarios. Upgrade your wireless network with the INTELLINET Access Point and WiFi Repeater AC600 Dual-Band and enjoy fast and reliable WiFi connectivity throughout your home or office.

PIX-LINK
300Mbps
Repeater

- Boosting existing network to hard-to reach and long distance area,with this wifi booster,it can easily extend your wifi coverage,say goodbye to WiFi dead zones.
- Extend WiFi Speed Up to 300Mbps ,offering stable and available WiFi signal in weak wireless area,no trouble in watching movies,listening music ,play online games, etc.
- Combined wired/wireless connection,This wireless repeater with Lan port,which not only support wireless repeater connection but also wired LAN connection.
- Compatible with any wireless network devices that comply with the agreement of 802.11n/g/b,including Desktop,PC,Tablet,Laptop,Smart TC,smartphone,iPhone,iPad,etc
- Easy to Install and Set:Plug this easily and setup follow the picture instruction. Simply pressing WPS button to get safe encryption

Function:

1. Extend your wifi signal throughout your whole house,
2. Eliminate dead zone, wifi signal in dead area such as Kitchen, Bathroom ect
3. Cellpphone signal boost 100% , stream music video game at ease
4. Repeater : Extend wifi range to make you receive wifi signal anywhere around house
5. AP Mode: Access Point Mode creates a wireless network for the other Wi-Fi devices

Quick Setup

1. Plug this unit into a power socket. Wait until see green led steady blink

2. On your phone/tablet/laptop connect to wireless network which name is "Wifi Repeater" (NOT your existing Wifi)
3. Open your browser and go to 192.168.10.1
4. Log in. Username and password are both "admin"
5. Click on "Repeater" (under Wizard)
6. Select your existing Wifi network and click "Apply"
7. Change the Repeater SSID(name) and Security key to EXACTLY match the SSID and password of your Wifi network. Click "Apply".
8. Reset tips: Stick/Press the reset button for nearly 10s or more until you see the green LED blink steady

Note:

- Please connect the wifi "WiFi Repeater" on your computer/phone wireless list before you log in the website "192.168.10.1" to configure.
- If you set the device as a repeater, please enter your original home wifi password and it is recommended to rename the SSID.
- If you want to reconfigure this device, please reset it first: Press the reset button over 10s till only the red power light on and green WPS light on and then WLAN light blinks.

Specifications:

- Frequency Band: 2.4 GHz
- Supported Voltage: 110V-240V
- Maximum WLAN security with WPA2, WPA and WEP(128/64)
